STABILIZER SEMINAR

Ever wonder which stabilizer to use for your embroidery project? Ever ask yourself:

- ♦ Should I use tearaway or cutaway?
- ♦ Should I use medium or heavy weight?
- ♦ When do I use a fusible?
- ♦ What is the wash away used for?
- ♦ Why use a topping?
- ♦ What if my design has 5,000 or 15,000 stitches?
- ♦ What difference does stabilizer make anyway?

Come learn all of the stabilizing secrets
Saturday, Jan. 6 10 AM - 2 PM
Cost is \$25 Reservations Required

New Products from *BROTHER*

New Upgrade v.3 for Innov-is 4000D

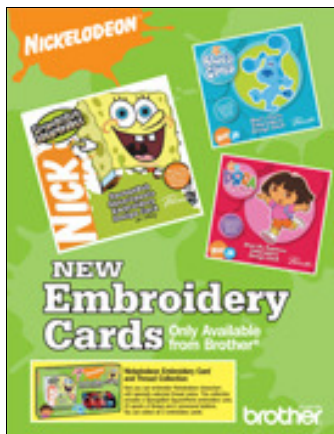

This kit includes the installation CD, instruction manual, reference guide and the following list of attachments and features:

- ◆ 3 free-motion quilting feet: C (straight stitch, center needle); O (open toe for straight and zigzag stitches, left and right needle position); E (marked with 1/4" guideline).
- ◆ Bobbin cover with 1/4" markings.

The following features are added to the Innovis:

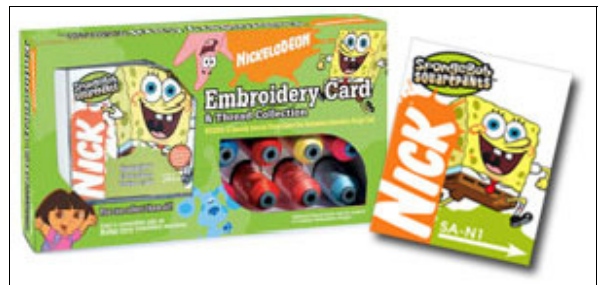

- ◆ USB mouse compatibility -- You can attach a mouse to the USB, or a hub to attach the mouse and flash drive at the same time.
- ◆ Special pivot feature -- Machine stops with needle lowered & the presser foot is automatically raised to a preset height when the stop/start button is pushed.
- ◆ Free motion mode -- Machine detects the thickness of the fabric and free-motion foot is raised to a preset height.
- ◆ Automatic fabric sensor system for free motion -- Foot automatically senses the fabric and adjusts to the preset height.
- ◆ Automatic fabric sensor system -- Foot automatically senses the fabric thickness and adjusts the pressure for smooth and even feeding of fabric. Useful for thick seams and piecing or patchwork quilting.
- ◆ Back to beginning key -- You can press this key to restart sewing from the beginning of a character and decorative stitch pattern. If pressed when sewing, patterns can be added at the end of a combined stitch pattern.
- ◆ Embroidery pattern drag & drop -- Drop and drag with the mouse to change the embroidery pattern.
- ◆ Character spacing -- Reduce spacing between embroidery fonts in Embroidery Edit. Can overlap characters up to 50% of the smallest character size in the group.
- ◆ Automatic color sorting in continuous borders -- In continuous border function, thread is automatically sorted on the sewing screen.

Call 713-864-2601 for special pricing information.

Nickelodeon Memory Cards

SpongeBob SquarePants, Dora the Explorer and Blues Clues. Begin your collection with a kit that comes complete with a SpongeBob SquarePants embroidery card, 23 spools of specially selected Nickelodeon thread colors and 2 pre-wound bobbins to help produce the best looking, most realistic embroidery of the Nickelodeon characters offered on the Brother Embroidery cards.

BROTHER QC1000 Now Available!

What a great machine for quilting! The QC1000 introduces ICAPS Innov-ís Continuous Automatic Pressure Sensor to the world of quilting. ICAPS continuously detects fabric thicknesses while sewing and automatically adjusts the presser foot pressure for beautiful, precise, even stitching throughout your project. The new pivot function gives you more control when turning those intricate corners. To enhance your quilting capabilities, the QC1000 comes with 3 types of free-motion presser feet, a large extension table and a Deluxe Quilting Package containing a rolling travel bag and quilting supplies. Creative, dependable and loaded with lots of quilting stitches, the QC1000 is perfect for all your quilting projects. Other special features include:

- Up to 1,000 stitches per minute embroidery.
- Super bright LED lights for increased visibility.
- Push button presser foot lifter.
- 127 built-in stitches.
- Free arm sewing capability.
- Independent bobbin winding system.
- LCD touch screen.
- Single USB port.
- Advanced needle threading.
